

649.00 EUR incl. 19% VAT, plus shipping

- Intel® LGA 1151 Socket Core i7/i5/i3 Processor (Max 45W)
- Support 2* DDR4 2133/1866 SO-DIMM (Max 32GB)
- 2* Intel® 10/100/1000Base-T Ethernet (i219LM +i211AT)
- 2* RS-232/422/485 ports with automatic flow control
- VGA / HDMI support two independent displays
- 4* USB3.0, 4* USB2.0, 1* PCIe x16 slot + 2* PCI slots or 3* PCI slots
- · Thumb screw for easy maintenance and expansion card installations
- The lead switch is convenient for the actual field operation
- 19V DC-in

HM-3000 uses 12~24V voltage design to support over voltage and over current protection, support 2* SO-DIMM DDR4 2133 memory and support up to 32G memory. It also supports 2* Display simultaneously and support front switch function.

HM-3000 is a system with whole aluminum structure of the thickness of 5mm. This can ensure its strength, stability and beautiful appearance in the same time. It also features with its fanless and wireless design, even the battery is designed with buckle assembly. These designs mostly ensure the stability of the system.

In order to support customers' different needs, HM-3000 possesses all kinds of expansion and extension function. For the expansion part, Jetway is able to design expansion cards based on customers' need. For the extension part, the standard interface HM-3000 uses is: 1*PCle x16 + PCl Slots, we can also provide extension daughter cards depend on your request. As an example, we can offer 5 *PCl Slots daughter card. In order to satisfy the need of watchdog function, there is a vertical USB interface inside the extension card.

Last but not least, we use the protective cover design on two sides of the heat sink. With this design, you won't have to worry about being scalded during the operation. With its good performance and safe operating design, we are sure you will be in love with HM-3000!
